

# CRYSTAL HEALING COURSES

## INFORMATION PACK 2019

## Cornwall School of Crystal Healing

Cornwall School of Crystal Healing (CSCH) was founded by Sue Weaver in 1996. We offer workshops, classes and training in crystal healing.

We cater for everyone who is interested in crystals and crystal healing and wants to learn more. Our aim is to encourage and support grounded and inspirational learning for everyone.

We offer a variety of learning opportunities from introductory talks and workshops for the complete beginner to fully accredited professional healer training courses. For the healer training we are joined by visiting teachers with many years' expertise in their own fields and supported by a recently qualified Diploma student who now has her own practice. We also offer additional workshops and weekends on a variety of crystal and crystal healing related topics.

### Sue Weaver

I am the founder and principal of Cornwall School of Crystal Healing and have been working with crystals for over 30 years. I am a crystal and shamanic healer, teacher and mentor, ceremonialist and celebrant, seller of crystals, gardener, mother, grandmother and elder. I am also a trained teacher and psychology graduate with experience in social and community work.

I have also been a long-standing member of the Affiliation of Crystal Healing Organisations (ACHO) which accredits the professional training offered by CSCH. Since I joined 23 years ago I have held the post of Treasurer and have just taken on the post of Practitioner Register Secretary.

## An overview of our Courses and Workshops

We believe that every human being has immense potential and each person brings unique qualities, talents and abilities to the group and to the world. People from all walks of life attend our courses – everyone and anyone is welcome to train with us.

All our courses focus on personal growth and empowerment and everyone's gifts are honoured, nurtured and supported to develop. Our aim is to balance spiritual inspiration and development with grounded theory and practice.

Alongside development of personal intuition and growth of spiritual connection and inspiration, we also encourage clear thinking, questioning and discernment between facts, opinions and beliefs.

When you start to work deeply with the crystals, hidden experiences, emotions, attitudes and beliefs often come to the surface for healing. That's why we use crystals with other people! This process prepares you to work responsibly with others and is an essential part of proper healer training. It is predominantly for this reason that training with us takes time and can't be hurried.

We believe that the group experience is very powerful. We can learn so much by respectfully sharing our experiences, viewpoints and understandings and by listening to others. In this way we grow stronger as a group and individually.

## Memberships and Accreditations

CSCH is a member of The Affiliation of Crystal Healing Organisations (ACHO) which has been the lead body for crystal healing within UK since 1988. Our Crystal Healing Diploma Course meets the ACHO Training Standards for Crystal Healing.

CSCH is also a member of the Crystal Therapy Council (CTC) which is a register of schools offering courses in crystal therapy/healing that meet the training, assessment and management standards set by CTC and lodged with the General Regulatory Council for Complementary Therapy (GRCCT).

For more information, please see [www.crystal-therapy.org](http://www.crystal-therapy.org), [www.crystalcouncil.org](http://www.crystalcouncil.org) or [www.grcct.org](http://www.grcct.org)

## Standards of Training

For many years, ACHO stated that in order to train to professional practitioner level, students needed to train, study, practise, improve, grow and gain in experience and confidence over 2 years with a minimum of 180 tutored hours.

Recently, in the face of competition from shorter courses and diplomas, many of which have minimal teaching and often no face-to-face contact, some teachers have felt under pressure to reduce requirements in order to fill courses

In our opinion, short courses that promise professional competence in a day, a weekend or a few days, may serve the training provider but they don't truly serve the student nor those they will be treating.

Several students come to CSCH following other training. All wish that they had saved their money and energy and invested in a full, thorough and comprehensive course from the beginning.

ACHO's Training Standards are available on the website, but don't let the 'education speak' put you off. We use straightforward, everyday language on our courses!  
[www.crystal-healing.org/wp-content/uploads/2019/03/ACHO-Training-Standards-2019-3.pdf](http://www.crystal-healing.org/wp-content/uploads/2019/03/ACHO-Training-Standards-2019-3.pdf)

Please ignore the Foundation Syllabus.

### Why choose to study with CSCH

There are many reasons for choosing to study with us, but the most important reason is our long experience of healing and teaching with honesty and authenticity. Our courses are very thorough and prepare you to be an excellent crystal healer. We do not and will never offer short crystal healing courses that promise adequate training to become a professional crystal healer – because we don't believe it's possible. We want our students to be able to offer the best possible treatments for their clients, and that takes time. If you are looking to achieve a qualification quickly, then we are not the right provider for you.

Our previous students are probably the best people to provide other reasons for studying with us:

- Sue conveys information in an infectious and enthusiastic way.
- The courses are well structured with many opportunities to practice in the teaching place.
- Well thought out homework exercises that develop knowledge and skill
- The course covers the required academic element according to the ACHO syllabus, along with experiencing energy and practical work of the healing.
- I have learned so much about crystal healing and can honestly say that it has changed my life.

For complete testimonials, please visit [www.sueweaver.co.uk/cornwall-school-of-crystal-healing](http://www.sueweaver.co.uk/cornwall-school-of-crystal-healing)

### What we ask of you

We ask for your full commitment to your training. You will need to work hard and be prepared to practise and then practise more.

In return, we will put in the time and effort to support you. By the time you gain your Diploma, you will be a competent, confident professional crystal healer/therapist with lots of experience. You will have grown and changed along the way, and hopefully had fun too.

## The Courses

The 22 syllabus stones specified by ACHO are the minimum required. At CSCH we work slowly and very thoroughly with crystals, developing a deep and profound relationship with crystalline consciousness. This is very different from learning about 'what crystals do'. It does not rely on memorising words, or properties, but gives you a deep body knowing that you will always have access to.

We work with 10 crystals in part 1; an additional 24 crystals in part 2 and a further 24 in part 3. Please ignore the Foundation Course Syllabus since it refers to short courses and isn't relevant to CSCH.

## Diploma in Crystal Healing – Part 1 – CSCH Basic Certificate

This course has 5 days face to face teaching over two weekends and is the first part of the ACHO accredited Diploma in Crystal Healing leading on to parts 2 and 3.

It can also be taken as a stand-alone course. Upon completion of the required homework, you will receive a Basic Certificate in Crystal Healing from Cornwall School of Crystal Healing that states that you have reached a level of competence to treat friends and family.

The course is also suitable as CPD for practitioners of other therapies.

This Basic Certificate course is suitable for anyone. You do not need to have attended an introductory course. We assume no prior knowledge and you will be supported and encouraged throughout your time with CSCH.

With five teaching days over two weekends, the course provides a thorough grounding in the theory and practice of Crystal Healing. It is the beginning of a personal journey of spiritual awakening and growth that will enable you to work competently for self-healing and with friends and family. It also prepares you for the next part of the full Crystal Healer Training.

If you are a fully trained therapist in another discipline, this course will enable you to bring some crystals and some basic crystal healing techniques into your work.

### The course includes:

- Understanding energy and different theories of health and healing. The science of vibrational medicine and how crystals fit into this model - ACHO Module 7
- Managing your own energy field and spaces - clearing, grounding, aligning and protecting – ACHO Modules 6 and 9

- Basic geology - crystal formation, composition, structure, hardness, toxicity, etc – ACHO Module 1
- Choosing, clearing, charging, dedicating and programming crystals – ACHO Module 2
- Developing your sensitivity to subtle energies
- Several methods of attuning to crystals or connecting with crystalline consciousness – ACHO Module 2
- Basic understanding of the human energy system – the aura and 7 chakras – ACHO Modules 3 and 4
- Basic crystal healing applications including Aura Cleanse and Balance, Laying on of Stones, Chakra Balance, Simple Crystal Gridwork – ACHO Modules 6 and 8
- Basic practical and ethical responsibilities of being a healer – ACHO Modules 7 and 10

There is a balance of theory and practice, and you will be given comprehensive class notes for most subject areas. There are opportunities for supervised hands on work following demonstrations. We work hard but we also have fun.

#### **Homework:**

You will:

- work deeply over a period of days with each of 10 crystals and keep a journal of your experiences
- practice techniques on yourself and on willing friends and family and provide records of these treatments
- read widely, but preferably not the opinions of others regarding 'what crystals do' until you have formed your own opinion based on your days with the crystals
- provide written answers to questions from the ACHO Core Curriculum. I find alternative methods of recording for any students with literacy challenges.

#### **2019 fees: £400 (£350 early bird fee)**

£100 deposit

The remainder payable either:

- one month prior to the start date
- in instalments as agreed prior to the course starting. Please ask me if you need an instalment plan. Don't be embarrassed. Most people do!
- £350 early bird payment

## Diploma in Crystal Healing – Part 2 – CSCH Certificate

This course has 7 days face to face teaching; is the second part of the ACHO accredited Diploma in Crystal Healing and leads on to part 3. Students must complete part 1 before joining part 2.

Upon full attendance and completion of homework, you will be awarded a Certificate in Crystal Healing from Cornwall School of Crystal Healing.

This is not the same as an ACHO accredited certificate since we will not have completely covered all the ACHO Modules. You will not be eligible for inclusion on the register because we have focussed on crystal practice and connecting slowly and deeply with the crystal spirits rather than learning what's needed to answer written questions. You can, however, obtain student insurance, enabling you to work as a student practitioner as you study for your full Diploma.

This course is based on a deep exploration of the 7 chakra system that was introduced in part 1 and includes:

- Deepening our theoretical knowledge of the human subtle energy system - ACHO Modules 3 and 4
  - Practical exploration of our own energy, our own chakras and our own healing along with practising on other students under supervision - ACHO Modules 3, 4, 6, 7, 8, 9, 10
- This facilitates a very powerful spiritual journey and through group work we share our experiences and learn from each other. Working in this way creates a very thorough understanding of the nature of healing and the healing process that we can take into our future practice. Also, by clearing our own issues and finding greater self-knowledge we become more competent, powerful and empathic healers.
- Attuning to 24 additional crystals
  - Creating a unique personal catalogue of crystals - your 'Crystal Sheets' - ACHO Modules 1, 2, 3, 4, 6, 7, 8, 9
  - Moving from using standard 'crystal therapy techniques' to more intuitive healing work - ACHO Modules 1, 2, 3, 4, 6, 7, 8, 9, 10
  - Responsibilities of being a healer/therapist – ACHO Module 10
  - Record Keeping and creating a unique case history sheet – ACHO Modules 7 and 10
  - Self-reflection and self-assessment
  - Understanding record keeping and creating a case history sheet – ACHO Modules 10

There is a new or extended theory and lots of practice, and you will be given further comprehensive class notes for most subject areas. There are further opportunities for supervised hands on work following demonstrations. We work hard but we also have fun.

### Homework:

You will:

- work deeply over a period of days with each of 24 crystal and keep a journal of your experiences
- practice techniques on 20 clients, including your classmates, and record your experiences using your Case Study Sheets – this includes the practical work from part 1  
Of these 20 clients, you will treat 5 people 5 times and 15 people once  
You can include your treatments from part 1
- read widely, but preferably not the opinions of others regarding 'what crystals do'
- provide written answers to questions from the ACHO Core Curriculum. I find alternative methods of recording for any students with literacy challenges.

### Practical Assessment:

There will be an observed practical assessment, out of class time, for which there is a charge of £40.

### 2020 Fees: £500 (£450 early bird fee)

£100 deposit

The remainder payable:

- one month prior to the start date
- in instalments as agreed prior to the course starting. Please ask me if you need an instalment plan. Don't be embarrassed. Most people do!

### Diploma in Crystal Healing - Part 3 – ACHO accredited Diploma

This course has 12 days face to face teaching and is the third and final part of the Diploma in Crystal Healing – a full, thorough, comprehensive professional healer training

You must have completed parts 1 and 2 before joining part 3. Upon full attendance and completion of homework, you will be awarded a Diploma in Crystal Healing from Cornwall School of Crystal Healing.

This is an ACHO accredited award, enabling you to obtain full insurance and appear on the ACHO Practitioner Register as a Gold Standard practitioner.

This course is a deepening of the practical and spiritual journey so far. Many of the subjects we focus on will have already been referred to or touched upon in Parts 1 and/or 2.

This course includes:

- Attuning to 24 additional crystals
- Continuing to create a unique personal catalogue of crystals - your 'Crystal Sheets' - ACHO Modules 1, 2, 3, 4, 6, 7, 8, 9
- How the crystal systems relate to healing – ACHO Module 1
- Delivering a visualisation – ACHO module 9
- Introduction to Chinese Medicine and the meridian system – ACHO Module 5
- Transpersonal chakras – 12 chakras and other systems of understanding – ACHO Modules 3 and 4
- Working with a pendulum for assessment and healing – Modules 2, 3, 4, 5, 6, 7 and 8
- Creating and working with crystal waters, essences, elixirs – Modules 3, 4, 5, 6, 7 and 8
- Quartz formations and personalities – 'Master Crystals'
- Sound and crystals
- Colour and crystals
- Shamanic approaches – journeying to the crystal spirits, working with allies and higher dimensional helpers – Modules 2 and 6
- The Medicine Wheel as a map of reality – Modules 7, 8 and 9
- Responsibility and karmic contracts
- Sacred geometry, Platonic Solids, Light Grids, Crystalline Consciousness
- Inner child healing, past life healing, ancestral healing, soul family healing, karmic healing
- Earth Energies, Earth Healing
- Cosmic Healing – Earth, Moon, Sun, Planets

There is new and extended theory and lots of practice You will be given comprehensive class notes for many subject areas, but much of the teaching at this stage will evolve in the moment. There are opportunities for supervised hands on work following demonstrations. We may invite past students in to demonstrate how the unique way they now work. We work hard but we also have fun.

#### **Homework:**

At CSCH, although we meet the standards of the ACHO core curriculum, we are less concerned with essay or 'thesis' writing and focus more on your personal development a healer and getting as much hands-on experience as possible.

You will:

- commit to working deeply over a period of days with each crystal and keep a journal of your experiences
- practice techniques on 30 clients and record your experiences using your Case Study Sheets Of these 30, you will need to have treated 10 people 5 times and 20 people once
- read widely, but preferably not the opinions of others regarding 'what crystals do'
- provide written answers to some questions from the ACHO Core Curriculum. I find alternative methods of recording for any students with literacy challenges.

For some people, finding 30 'bodies' can seem a lot, but at CSCH we are clear that this is the best way to learn. To support you in your hands-on work, CSCH aims to provide opportunities for supervised work on the public.

To qualify for your Diploma in Crystal Healing you will need to provide evidence of an Anatomy and Physiology qualification. This could be a medical qualification such as nursing; a qualification in Human Biology; an A & P course taken as part of a massage, reflexology or aromatherapy course. You will need to provide evidence. Alternatively, you can study for an A & P qualification.

**2020 Fees: £900 (£850 early bird fee)**

£100 deposit

The remainder payable either:

- one month prior to the start date
- in instalments as agreed prior to the course starting. Please ask me if you need an instalment plan. Don't be embarrassed. Most people do!

**One-to-one mentoring and supervision**

Lots of support is given to students, but sometimes students a bit of extra one-to-one mentoring and supervision. CSCH can offer one-to-one mentoring, in person or online, both to current students and those who have already qualified.

**2019 Fees:**

£40 per hour

CSCH does not offer one-to-one training. We feel that the group process offers so many opportunities to the learner and one teacher, however gifted, cannot compensate for the absence of this.

**Individual healing sessions**

Students often ask for treatments when things come up during training. It can also be very helpful to observe a very experienced crystal healer at work, from the position of client.

**Fees 2019:**

£60

Most sessions are between 1.5 and 2 hours. If, as occasionally happens, the process is completed within an hour, you will be charged £40.

Distant/Absent healing is also available.

### CSCH Course Venue

Courses are held in the beautiful Crystal Barn at Sue's home. The barn has been the home to many courses and ceremonies for over 20 years and has a beautiful energy that supports the crystal work.

It is on the National Trust Cotehele Estate in the beautiful Tamar Valley, and when the crystal energies or demands of study need to be balanced, you can walk by the stream in the woods or sit in our Sacred Circle beneath ancient Oaks.

<https://www.nationaltrust.org.uk/cotehele>

We are not easily accessible by public transport, but we have found that students usually manage to find a way to get here by sharing transport.

The course is non-residential. Some students travel daily. Others live too far away, or who prefer to stay during course time often stay in a local b & b.

You can Google Callington B & B and there are lots of places on Air bnb. We have found that students often form close friendships and rent houses that they can share to keep costs down. Students from the last course stayed at St Mellion Lodges, which is very close and was clean, spacious and affordable.

### Booking forms and further information

Please email for a booking form, to ask further questions or to arrange for a chat. It is very exciting to think about embarking on a Crystal Healing Course, but it can also be daunting. I always say that I'd like to meet the teacher, or at least have a chat with them, before making a commitment, so I completely understand if you feel that way too.
