

CRYSTAL AWARENESS COURSE

INFORMATION PACK 2021

Hello! I'm Sue Weaver

I am the founder and principal of Cornwall School of Crystal Healing and have been working with crystals for over 30 years. I am a crystal and shamanic healer, teacher and mentor, ceremonialist and celebrant, seller of crystals, gardener, mother, grandmother and elder. I am also a trained teacher and psychology graduate with experience in social and community work.

People have been asking for this course for years!

A bonus of being prevented from doing face to face work is that it has given time to create this course.

Who is this course for?

This is a course for everyone, from complete beginners to those with experience who wish to go back to basics and ground their knowledge and experience. Many people come on my courses having already done other courses and are amazed at what they learn and how their relationship with the crystals changes completely.

What will I learn?

This course provides a wonderful introduction to crystals that is both down to earth and inspirational. It is designed to introduce you to the amazing power of crystals and take you on a journey of discovery and personal growth.

You will learn:

- ✧ What is a crystal
- ✧ What isn't a crystal
- ✧ How to choose and care for your crystals
- ✧ A bit about how crystals are formed and where they come from
- ✧ Some ways in which people think crystals work
- ✧ A bit about the nature of health and healing
- ✧ How you can work with crystals for meditation, self-healing, spiritual growth and transformation
- ✧ Some 'techniques' for self-healing
- ✧ How you can bring crystals into your life, home, garden, workplace, etc

And the most important bit!

✧ You will develop your ability to communicate with the crystals themselves. Although many crystals will be mentioned in the course, we will work in depth with 6.

How is the course structured?

It is an interactive course, with each class held in a spirit of ceremony.

✧ From the very beginning we focus on establishing and working in a sacred circle, even when we aren't physically together.

✧ We look at 'creating' sacred space during our time together and during your 'homework' practice.

✧ There are 6 lessons held at fortnightly intervals on Zoom, with a focus on connecting with the spirits of the crystals and learning directly from them. These lessons are planned for 2 hours, but may be shorter or longer depending on the depth of sharing.

✧ In each lesson there will be a teaching presentation along with experiential practice and sharing.

✧ There will be practical 'homework' for between classes for you to deepen your relationship with the crystals, if you so choose.

✧ In between there will be 6 support sessions of up to an hour on Zoom, when you can bring questions from the classes and your homework.

✧ There will also be a private Facebook group for you to communicate with one another and share experiences, should you choose. Joanna May will act as support for this, and bring questions to me if needed.

By the end of the course you will have a sound basic understanding of energy, of crystals and of the nature of healing. By basic, I mean in comparison with my professional training course. Compared with very many crystal courses on the market, what you learn will be very comprehensive and thorough.

Why should I choose this particular course?

Complementary therapy and related courses have become big business, especially those where there is also a 'product' to sell. You can now buy all kinds of courses that promise all kinds of things and offer all levels of qualifications, with prices ranging from very low to extremely high, so the first questions to ask are:

What am I getting for my money? & Who does this course serve?

It's also a good idea to ask the teacher:

What is their experience of working with crystals? When and how did they train? What teaching experience do they have?

What am I getting for my money and who does this course serve?

Lots of online crystal courses are pre-recorded and you do them on your own in your own time. This means that the teacher writes the course once and can sell it many times. Such courses are very effective at providing an income for the teacher but don't serve students very well and you might as well save your money.

☆ This course gives you 18+ hours of teacher contact time, plus an ongoing support group

Lots of online crystal courses give lists of 'which crystal does what'.

☆ You will learn why I don't teach that way and why this course focusses on your own individual relationship with the crystal spirits. You will discover why reading about 'what crystals do' gives a very limited understanding of the true power and potential of crystals.

Working my way takes time and doesn't make lots of easy money for the course provider! It does, however, result in students who truly understand crystals and that makes me happy.

What is my experience of working with crystals? When and how did I train? What teaching experience do I have?

I often say I discovered crystals in 1990, but that isn't strictly true. I'd been attracted to them for years and they grabbed me in 1990! I've been working with them ever since, in my own life and offering healing to many people.

In 1990 there was no established crystal healer training so I found teachers wherever I could. I gave birth to my fourth child in 1993 and had exhausted the supply of human teachers so I turned to the crystal spirits themselves.

I've been teaching people about crystals almost from the beginning, when I was asked to share what I'd learned.

In 1996 I started teaching my first diploma course. I am also a fully trained teacher in the 'normal world' sense.

Can I progress?

Having completed this course, gained a basic understanding of both crystals and healing and become familiar with how I work, you will be able to take more advanced online courses on specific subjects including Crystals and the Chakras, Crystal Essences, Crystal Grids.

Should you wish to progress to healer training and a professional Diploma in Crystal Healing, you will be eligible for a £75 (20%) reduction in the fee for part 1 of the course.

Can I learn to be a Crystal Healer/Crystal Healing Therapist online?

You can. You can buy 'professional diplomas' in almost anything but this is not how I work.

This basic course will teach you more than many that claim to train you, but I do not believe it is possible to teach people to be competent, responsible healers without spending considerable time with them, side by side, doing supervised healing work.

What's my commitment?

1. You need to commit to attend all the classes and group sessions. We understand that, occasionally, there are unforeseen circumstances that prevent this. If this happens, you will be able to access a recording of the teaching part of the class but not any sharing.
2. You will need to organise quiet uninterrupted space for two hours+ on 6 evenings.
3. You will need to agree to hold confidentiality.
4. You will need to have chosen a crystal that will help you on this course - A clear Quartz crystal – raw or polished – have it with you for every class. (More information on this will follow.)
5. You will need a dedicated notebook/journal. Treat yourself to something beautiful!

What is my investment?
